Top 10 4x4s at the 2025 Canadian International AutoShow to Dominate Winter Weather

Explore a wide array of winter-ready 4x4s on display

TORONTO, ON. — Snowy conditions have shone the spotlight on winter-ready vehicles, and there are many to choose from under one roof at the 2025 Canadian International AutoShow. These vehicles have the power, traction, ride height and advanced technology needed to conquer the toughest of Canadian winters.

Ford Bronco Raptor

Equipped with the Goes Over Any Type of Terrain (G.O.A.T.) management system, the Ford Bronco Raptor offers seven different modes to tackle nearly any weather condition you may encounter. This vehicle features massive 37-inch all-terrain tires on 17-inch alloy wheels, as well as a HOSS 4.0 suspension system. The FOX™ Live Valve Semi-Active Dampers continually monitor changing terrain conditions hundreds of times a second and adjust accordingly. The Bronco Raptor provides all the traction and capability needed to cover challenging ground quickly and confidently, ensuring you get where you need to go, no matter the weather.

Ford F-150 Tremor

The Ford F-150 Tremor never backs down from a challenge, providing exceptional four-wheeling capability to handle ice, snow, and tough terrain. When weather conditions change, you can quickly adapt with the twist of a dial thanks to selectable drive modes to help keep you in control. Stylish 33-inch all-terrain tires come mounted on an aggressive-looking matte-finish 18-inch wheel. Added ground clearance, and a 1-inch-wider stance contribute to more confident handling.

Chevrolet Silverado 2500HD ZR2

Built for the toughest conditions, the Chevrolet Silverado 2500HD ZR2 can plow through any snow in its way. This rugged truck combines extreme towing and payload capability with the off-road prowess you may not expect from a heavy-duty pickup thanks to a 1.5-inch suspension lift, 35-inch Goodyear Wrangler Territory® MT tires, and Multimatic DSSVTM dampers. Whether navigating icy roads or deep snow, the 2500HD ZR2 can handle it all.

Chevrolet Colorado ZR2 Bison

Holding best-in-class records in ground clearance, breakover angle and underbody protection, the Chevrolet Colorado ZR2 Bison is engineered for unmatched durability and control in harsh conditions. This truck boasts class-leading 35-inch OD tires, delivering superior traction and off-road capability. When Colorado is properly equipped, you can experience up to five drive modes

to help optimize your truck's performance and simply turn a dial to adjust to challenging road conditions.

Jeep Wrangler 4-Door Rubicon

The Jeep Wrangler 4-Door Rubicon is a winter warrior, offering an unrivaled combination of off-road capability, authentic Jeep Trail Rated design. Equipped with the Rock-Trac® 4x4 system, it delivers you more control, more torque, and more off-road performance. At Camp Jeep during the AutoShow, you can experience the Wrangler's incredible terrain-conquering abilities firsthand, without even stepping off of the show floor.

Ram 1500 RHO

Built to carry on the legacy of the exceptional Ram TRX, the Ram 1500 RHO is the strongest Ram ever, dominating the winter roads with ease. For outstanding driving control on nearly all terrains and conditions, the RHO features nine different drive modes, allowing you to fine-tune dozens of control parameters to match your specific needs. Ram has engineered over 100 of the most advanced standard and available safety features into the RHO, ensuring confidence in every situation.

INEOS Grenadier Quartermaster Fieldmaster Edition

Grenadier prides itself on proper 4x4 capability, built for the 21st century. The vehicle features a best-in-class engine, ladder-frame chassis, permanent four-wheel-drive, locking differentials, and solid beam axles, enabling it to easily power through snow and ice. This rugged vehicle ensures reliable performance no matter the terrain, making it the perfect luxury companion for winter adventures.

Toyota Tacoma TRD Pro

The Toyota Tacoma TRD Pro is built to take on whatever lies ahead. When it comes to off-road performance, Toyota Racing Development (TRD) is often what comes to mind. The Tacoma TRD Pro is equipped with 2.5-inch FOX™ suspension and large 33-inch tires, providing proven traction and control on snowy, icy, and rugged terrain. With these powerful features, the Tacoma TRD Pro is ready to handle whatever winter throws your way.

Toyota 4Runner i-FORCE MAX Trailhunter

All-new for 2025, the Toyota 4Runner i-FORCE MAX Trailhunter is an authentic SUV that is capable, dynamic, and durable – perfect for Canadian winters. Trailhunter goes big, with 33-inch tires wrapped around 18-inch bronze-finished wheels, boosting ground clearance while delivering enhanced off-road traction, these rugged-terrain tires will help you power through snowy conditions and reach your destination.

Mercedes-Benz G 580 with EQ Technology

The G-Class has built a reputation over the past 45 years for its legendary off-road capability and the all-new Mercedes-Benz G 580 with EQ Technology is no exception. This vehicle is capable of climbing up to an impressive 100 percent grade (45 degrees). Exclusively at the AutoShow's Mercedes-Benz display, the G-Class can be seen perched atop an eye-catching 11.5-foot-high mountain-scape, proving the G 580's off-road prowess and winter-ready capabilities.

All of the above models can be found on display at the Canadian International AutoShow, experience them up-close and discover what makes them best-in-class for conquering winter driving.

The 2025 Canadian International AutoShow, presented by Toronto Star, returns to the Metro Toronto Convention Centre from February 14th to the 23rd.
